

Street Overlay Work

In Fiscal Year (FY) 2018, the City initiated a major investment in its street infrastructure through a \$5.0 million bond issue. A Pavement Condition Index rating system was used to prioritize the work, which is performed by outside contractors.

The City will build upon this investment in FY 2019. The FY 2019 budget includes approximately \$1.57 million for the milling and paving of various streets in the City.

On July 23, 2018, the Mayor and Common Council awarded a contract for the FY 2019 street overlay program. The City's contractor will continue work in the area of the Greens of Westminster neighborhood during the coming year. Work will also take place on streets crossing Main Street east of MD 27.

New City Administrative Offices

In early June, the City acquired the former BB&T Bank building located at 45 West Main Street. Following renovation of the building to bring it up to code and other modifications, the City will relocate its administrative offices from the current leased space at 56 West Main Street. The design and renovation process is expected to take about 18 months.

Gant Brunnett Architects (GBA), the project architect for the 45 West Main Street renovation project, has been working with the various City departments to understand their space needs. Based on this information, GBA have developed a conceptual space layout for each floor of the building, which was presented to the Mayor and Common Council by City staff on July 23, 2018. These conceptual drawings will provide the foundation for GBA's development of drawings and specifications for permitting and bidding purposes.

Under a lease arrangement, BB&T will continue to operate an ATM at 45 West Main Street.
